Fuse-It-siRNA

Improved siRNA Transfection

Benefit from:

- Exceptionally efficient siRNA transfer, especially in sensitive primary and difficult-to-transfect cells, such as keratinocytes
- Extremely high biocompatibility due to low cytotoxicity
- Fastest siRNA delivery—no endocytosis or lysosomal degradation

Cat. No.	Description
60510	Fuse-It-siRNA, infrared fluorescent: 2 x 150 µl solution
60511	Fuse-It-siRNA, infrared fluorescent: 2 x 300 µl solution
